PROJECT DESCRIPTION: Crown Cork and Seal Company USA, Inc. has applied for a significant modification to its federal operating permit to operate an aluminum beverage can end manufacturing facility. The facility is located at 1461 Martinsburg Pike, Winchester, Virginia 22603. The draft modified permit reflects an increase in the rated capacity of their beverage can end line No. 3, as well as decrease in their volatile organic compounds (VOC) emission limit for their beverage can end lines (Nos. 1, 2, and 3). The changes described above have already been permitted under Virginia's minor New Source Review program. The facility is classified as a major source of air pollution.
